Хід роботи

The image consists of two screenshots from a web browser. The top screenshot shows the AWS Registration Confirmation page. The page has a light blue background with the AWS logo at the top left. The main heading is "Congratulations!" followed by the text: "We are activating your account, which should take a few minutes. You will receive an email when this is complete." Below this text are two buttons: "Go to the AWS Management Console" and "Sign up for another account". To the right of the text is a rocket ship icon. At the bottom of the page, there are three dropdown menus: "My role is:", "I am interested in:", and a checkbox for "Yes, I'd like Amazon Web Services (AWS) to share the latest news about AWS services and related offerings with me by email, post or telephone." The bottom screenshot shows the AWS S3 console. At the top, there is a green notification bar that says "Upload succeeded" and "For more information, see the Files and folders table." Below this is the "Upload: status" section, which includes a summary table. The summary table has two columns: "Destination" and "Succeeded". The "Destination" column shows "s3://kakotkin-mykyta" and the "Succeeded" column shows "1 file, 294.0 B (100.00%)". Below the summary table is the "Files and folders" section, which shows a table with one file: "lab4.html". The table has columns for "Name", "Folder", "Type", "Size", "Status", and "Error". The "Name" column shows "lab4.html", the "Folder" column shows "-", the "Type" column shows "text/html", the "Size" column shows "294.0 B", the "Status" column shows "Succeeded", and the "Error" column shows "-".
